Our proprietary technology platform – **ElectConnect** – will enroll and administer any Whole Life with Long Term Care product. We can stack coverage, map over existing amounts, and have the industry’s most comprehensive decision support tool.

If Something Unexpected Happens...

Your family will be glad you have life insurance.

This Whole Life plan offers fully transferable guaranteed premiums and chronic illness and death benefits. Rates will stay the same, even if you change jobs or retire.

The included chronic illness benefit can be used to cover:

- nursing home
- assisted living facility
- home healthcare
- adult daycare

Conforming your strategy to your platform, instead of the other way around?

BCI's *ElectConnect* platform will make that a thing of the past. Our platform integrates with your existing HRIS platform to educate employees on their available coverage options while seamlessly enrolling and administering the benefits.

Concerned with data integrity or individual level billing?

With our integration we manage the individual level billing changes with the carrier and provide accurate data back to your platform, providing employees one system with a total view of all benefits in their Worker profile.

Contact us today to see how we can help bring benefits freedom to you and your most valuable asset, your employees.
