We Meet You Where You Need Us

Enrollment

Use our proprietary SaaS platform, *ElectBenefits*, or we can layer on your existing platform to solve any product complexity challenges.

Communications

Solutions to help enhance benefits value, improve the understanding of complex benefits, and simplify the benefits decision making process.

Expert Advisors

Our licensed counselors are there to educate and assist your employees in person or via Call Center. We approach each employee with the care and time we would for our own families.

Data Exchange

Our Data Services team is focused on three key attributes: Quality, Timeliness and Security. Our robust tools ensure accurate on-time delivery of your data to providers and vendors.

Overworked HR Teams?

BCI's solutions optimize your employee and HR experience by giving you access to your data and handling all the heavy lifting. Our solutions are designed to provide hassle-free, customizable benefit delivery solutions. We can enroll and administer all of your products or layer on your existing platform to provide a solution for just one product.

About Us

Benefits Administration

Today's benefits administrators have many responsibilities, from choosing their benefit providers and plans to educating their workforce on the benefits that are most meaningful to their families, helping them make the right decisions, and enrolling in the right plans.

Part of that responsibility includes making sure their providers have the correct benefit enrollment information and that their HCM systems are pulling the correct deductions. We provide customizable solutions to make all of these responsibilities easier and more efficient so you can focus on what truly matters – finding the right benefits to offer your employees.
